To the Editor of the Buenos Aires Standard,

Sir,
In the *Standard* of yesterday a sale is mentioned of six leagues National Land situated in the 4th section on the Colorado. This must be a mistake, as there is no 4th section in the Colorado. If any of your correspondents have any land for sale on the Colorado I said figure I shall have much pleasure in putting them in communication with a purchaser.

Yours truly,
J. Kea JORDAN.

left alone, the next nearest Hospital is 26 squares distant. This course, excepting the Italian Hotel but they also are contemplating more. A decree, therefore, similar to the promulgated in 1870 and closing of hospitals within a certain radius will affect us very much if we had built a new place. The money available at present is not enough to build such a place, though we have been prepared with a view to commencing operations upon such ground as there is on the present site, and eventually demolishing the existing building, the design so

It is hoped that the Subscribers will approve the steps taken so far to deal with the question, and the Committee give notice that when their plan is thoroughly matured, (in a matter of such importance it would be a pity to proceed hastily) an extraordinary general meeting will be called to consider the sanction of the trustees and

The patients under treatment at the hospital were 344, of whom 133 were admitted, 33 having remained from 1881; of these, 166 were in 341 were outpatients. Of the patients treated, 765 were cured, 47 relieved, and 26 remained in Hospital 31st Dec, 1882. The rate of mortality was 1.5 per cent. The number of patients treated, and of 622 per cent. only on the number of in-patients.

The cost of management has been \$323,322 against \$374,641 in 1881, a saving of \$51,319; and the income has been 446,550 against \$388,066 in 1881, an increase of \$60,483.

EVILARDO O.
Treasur.

Signor Bortolazzi, the talented
of the *Slavjankie*, has sent round
circular asking all the papers in
view their opinion as to whether
millions of Slavs under Austria
right to their independence. We
say they have, if they can win
in trying to do so, they might
of the Austrian frying pan in
Russian fire, and gain nothing.

Mr and Mrs John O'Curry an

relative Miss Dillon, will shortly return to Europe, for a prolonged sojourn on the Continent. Mr O'C. is also brother of the pen, as he frequently writes for the Press. We wish him a prosperous voyage and pleasant sojourn in old Europe.

The cold in San Luis just now is severe, and is all the more felt in consequence of the Nat. Bank resuming advances and leaving many applicants for discount 'out in the cold.'

The papers say that Mr. Judge Croze's agreement with his partners about their colossal tramway scheme is to receive **£40 a day** for the first **three years**. **£40 a day!** £15,000 a year. And the line was started on a £2,000 capital.
